Applicant

ARAMBURU ECHEVERRIA, Sebastian et al.

1. The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
2. A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.
4. **REMINDER**

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed inventions is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

International application No. PCT/ES03/00010

Reference is made to the following document: **D1:US-A-4678229**

Re Item V

Prior art **D1** discloses the technical features of the preamble of claim 1.

The difference between claim 1 of the application and D1 is defined by the technical features of the characterising portion of said claim.

Said features serve to ensure that the chair's centre of gravity is maintained when it is reclined with a person sitting on it. This is achieved by the displacement of the seat base in proportion to the tilting of the chair.

None of the available prior art documents contain information which would lead the skilled person to arrive at the differentiating matter of claim 1, which therefore satisfies the requirements of Article 33 PCT.
